

**INVIZ**  
BY MIRALUPA

### A VALUABLE SALES TOOL

InViz allows you to view and distribute fully interactive, layered, augmented reality models created from your CAD drawings. Users can tap any layer or element to highlight, animate, read or explore. Carry an interactive AR model of your project anywhere you and your mobile devices go. Speed up the decision making process, and increase ROI and turnaround time.

### INSTRUCTIONS

- Download the InViz app from the app store or google play (keyword InViz).
- Open the app.
- You must login by entering your email address.
- Enjoy your AR experience
